

## International Wire Notice

Beginning June 1, 2017, we will discontinue offering outgoing international wire transfer services for our **consumer** members. Outgoing international wires transfer services will be continued for **business** members. We will continue to receive incoming international wire transfers for both consumers and business accounts, as well as both outgoing and incoming domestic wire transfers. This change is a result of the extraordinary compliance requirements now applicable for consumer accounts.

We have listed some other possible alternatives for transferring funds internationally:

- International wire transfers through Western Union
- International Money Transfer Services with PayPal
- International wire transfers through MoneyGram
- United States Postal Service International Money Orders
- VISA prepaid cards

\*Community Service Credit Union is providing these alternative transfer solutions for informational purposes only. We do not imply or provide any guarantee to the soundness of these sources and companies. Please conduct your own inquiries and considerations before processing any monetary transactions.

If you would like to review more information about this change, please visit the Consumer Financial Protection Bureau web site: <http://www.consumerfinance.gov/remittances-transfer-rule-amendment-to-regulation-e/>

If you have additional questions, please contact us at 936-295-3980 or 877-293-3980 (toll free).
